 'The aim of the commission in seting aside the specific source of inome as in the school tax is to secure a definite revenue from the large amount of non-property-owning males who have none of the responsibilities of citizenship, but whose children gain the benefits of the public school. "In taking a portion of the revenue

from public lands we devote the income from the public lands domain-to the purpose which the Ameri an people and in earlier days, the people of Hawaii, believed to be its proper use. From 1850 and to the year 1894, Hawaii gave the funds derived from one twenty the control of the people tieth of the public lands to public chool purposes, increment of our public lands belongs to the children of the soil. What better horitage can we, their trustees, give them than the facilities for a liberal education."

Referring to the variable tax on real and personal property which is to make up the deficit between the school budget and the permanent insome, the

umission says:
'Should the people of the Territory e unwilling to adopt this principle of taxation in connection with their schools, they indicate that they lack respect for the fundamental principle that high character of citizenship and government can only be maintained brough efficient public education."

County Jurisdiction.

The commission, in another part of the report, dwells on the important problem of jurisdiction over the schools which is pertinent now that the counties and Territory both seem so inclined to question the authority of the other.

The report says:

''One of the problems facing the people of the Territory at the present time is the adjustment of the responsibilities of the Territory and the coun-

A great many people in Hawaii fail to realize that education in Hawaii has passed through the stage of absolute local control. \* This commission does not urge a return to the old con dition, but recommends the development of local control through the school agent, according to the best recognized systems developed in America."

The school budget has been prepared under the bends of general fund, including salaries, supplies, libraries and industrial and manual training, and the special fund, for new buildings, repairs, janitor service and furniture and fix-

School Work.

The appendix to the report includes numerous statistics relating to school work. Under one section 125 schools are given as being actively engaged in agriculture, including all its stages from clearing the ground to reaping the harvest. Two schools are planting cane

Captain Estes arrived a short time ago from the Philippines, and has been on duty at Fort. pines, and has been on duty at Fort Shafter with the battalion.

Marine Barracks Must Wait.

According to private advices received here yesterday from a San Francisco correspondent the marine barracks for Pearl Harbor may not be built for some time, as the department has been un-able to make any changes in the orig-mal specifications whereby the bar-racks could be built for the original amounts appropriated. The correspond-ent states that probably nothing will be done until the next congress convenes when a larger appropriation will be asked for so that the barracks may be built on the original plans.

The band is a volunteer auxiliary branch of the marine battalion station ed at Marine Barracks, and since its on ganization a few months ago has become a spleudid musical addition. The band plays at guard mount and on all occasions of ceremony. It has been suggested that the band be invited eithe by the local government, or by civil bodies to give a concert or concerts in various public parks, so that the public may derive the benefit of its hard work

# VICTIM OF A JOE

(Continued from Page One.) so I learned later, the five Republican held a secret caucus at the Elks' going over to the supervisors' room afterwards in a body and telephoning for me to come down. I went down all primed up for a row.

"After I reached the cancus, the lis of chairmen was read and Dwight has the committee I wanted. I was made and told them what I thought about it I stated that I had applied for position because I knew I could de the work. I served three years on Ha wall as chairman of a road board: G Gere, the city engineer worked fo me; 'Brick' Whitehouse and othe me; 'Brick' Whitehouse and worked for me, and we learned the roadmaking business to

"I asked why the sudden change had been made. Murray said that the business people wanted Dwight and thought I should be on the finance com mittee. I asked him what busines men had said that and he declined to tell me, saying that it would not be fair to them. I told him I would fine out for myself, and I have. I have been to every prominent business man and business firm in Honolula and no one man or firm ever said to Murra; or anyone else that he wanted Dwigh
